

Liberia Institute of Statistics and Geo-Information Services (LISGIS) Newsletter Consumer Price Index (CPI) NOVEMBER 2025

THE INFLATION RATE FOR THE MONTH OF NOVEMBER 2025 WAS 4.8 PERCENT

"The Liberia Institute of Statistics and Geo-Information Services (LISGIS) is pleased to present to you the Consumer Price Index (CPI) Report for the month of **November** 2025. The report presents the Inflation Rate (month-on-month and year-on-year) for the period under review. It is hoped that the information contained in the report will aid the work of public policymakers and other interested data users in the private sector and those in the field of research".

- Hon. Richard Fartoma Ngafuan
Director General

KEY HIGHLIGHTS

1 Year-on-year (YoY) headline inflation for **November** 2025 was 4.8%.

Month-on-month (MoM) inflation for **November** 2025 was negative 0.3%.

2 YoY Food inflation was 1.0% while Non-food inflation was 6.6%

3 YoY inflation on imported items was 2.6% and the inflation on domestic items was 5.2%.

Table 1: Consumer Price Indices and rates (November 2024 – November 2025)

Month	CPI (Dec 2005= 100)	Change (inflation %)	
		Monthly (m/m)	Yearly (y/y)
Nov. 2024	757.9	-0.8	8.2
Dec. 2024	760.9	0.4	10.7
Jan. 2025	780.2	2.5	11.9
Feb. 2025	790.9	1.4	13.1
Mar. 2025	785.2	-0.7	12.4
Apr. 2025	778.9	-0.8	11.6
May 2025	780.1	0.2	11.7
June 2025	783.2	0.4	9.9
July 2025	806.6	3.0	7.4
Aug. 2025	809.3	0.3	5.6
Sept. 2025	803.5	-0.7	4.7
Oct. 2025	797.1	-0.8	4.3
Nov. 2025	794.6	-0.3	4.8

November 2025 Inflation

The Year-on-Year Inflation Rate for November 2025 was 4.8%, 0.5 percentage points higher than the previous month. The month's YoY inflation rate is the percentage change in the Consumer Price Index (CPI) of November 2025 and November 2024. The inflation rate decreased by 3.4 percentage points from November 2024.

The Month-on-Month Inflation in November 2025 was negative 0.3%. The MoM inflation rate in October 2025 was negative 0.8%.

Figure 1: Year-on-year inflation – November 2025 and November 2024, by COICOP Division

Food Inflation

The YoY Food Inflation for November 2025 was 1.0%. This is a decrease of 0.8 percentage point from the previous month. The YoY Food Inflation Rate is lower than the average of the last 12 previous months. The MoM Food Inflation was 0.2%, meaning that the general price level of food and non-alcoholic beverages increased month-on-month.

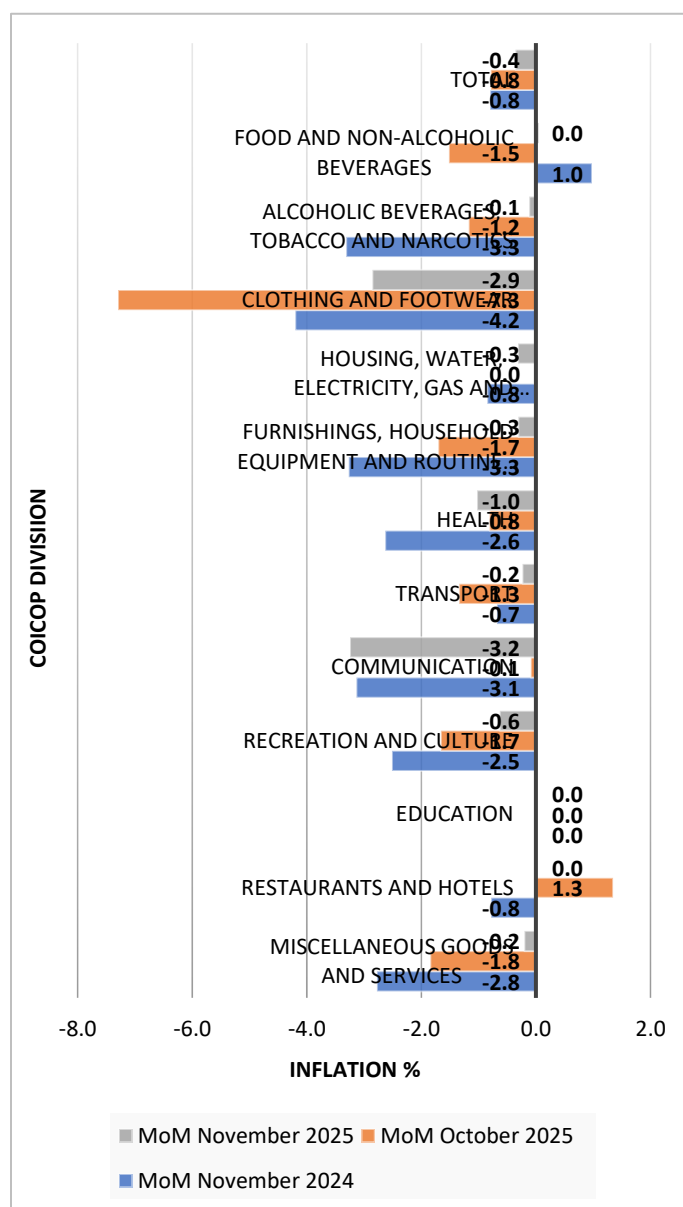

Figure 2: Month-on-month inflation - November 2025, October 2025 and November 2024, by COICOP Division

Five classes: Food products, Vegetables, and Sugar, jam, honey, chocolate and confectionery recorded negative year-on-year inflation rates for the month. The remaining classes recorded positive year-on-year inflation. Meats and Fruits recorded positive double-digit inflation rates. The general price level of food and non-alcoholic beverages increased between November 2024 and November 2025.

On a month-on-month basis, Milk, cheese and eggs recorded the lowest inflation (-1.7%) while Vegetables recorded the highest (1.0%). Eggplant recorded the highest Year-on-Year Inflation (42.9%). Onion was a major contributor to the Year-on-Year Inflation in the Vegetables Class. Onions recorded 4.8% year-on-year.

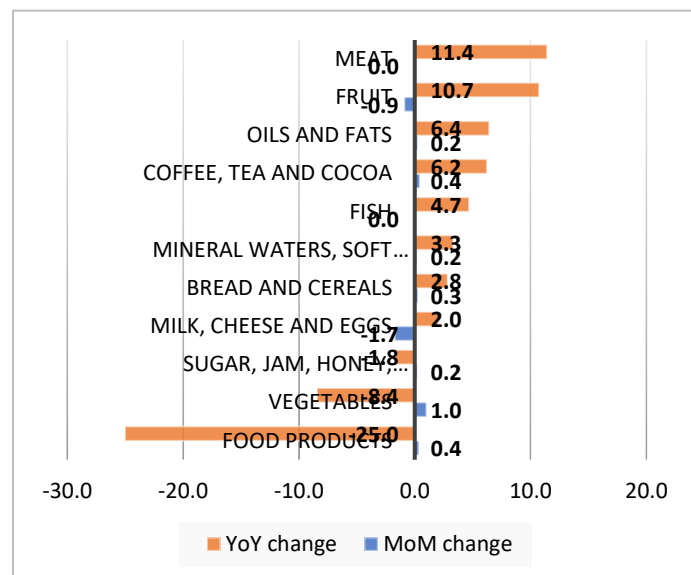

Figure 3: YoY and MoM inflations for Classes within the Food and Non-alcoholic Beverages Division – November 2025

Non-Food Inflation

The Year-on-Year Inflation for non-food items for November 2025 was 6.6%. Non-food Inflation for the month decreased by 3.1 percentage points from November 2024.

The Month-on-Month Inflation for the category was negative 0.5%.

Restaurants and hotels recorded 13.1% Year-on-Year Inflation, the highest for the third consecutive month in the non-food category while Recreation and culture recorded the lowest, negative 3.8%. Food-away (food purchased in restaurants and cook shops), being the highest weighted in the Restaurant and Hotel Division was the main driver of the Year-on-Year Inflation of the said Division. Food-away recorded a Year-on-Year Inflation of 13.9%.

Three out of 11 divisions in the non-food category recorded negative Year-on-Year Inflation. The divisions are: Clothing and footwear, Communication and Recreation and culture. The decline in the general price level is mainly due to the year-on-year appreciation of the Liberian Dollar. While prices quoted in United States dollars remained largely unchanged, their conversion into Liberian Dollars resulted in lower recorded prices.

Inflation for Imported and Domestic items

Imported items recorded a Year-on-Year Inflation of 2.6% in November 2025. This is an increase of 3.3 percentage points from November 2024. The Month-on-Month Inflation was negative 0.1 %.

Imported Food Items recorded a YoY Inflation Rate of 6.1% and the MoM Inflation Rate was 0.6%.

The YoY Inflation of domestically produced items for November 2025 was 5.2%. This is a decrease of 9.2 percentage points from the rate recorded in November 2024. The Month-on-Month Inflation Rate for domestically produced items was negative 0.4%.

Domestically produced food items recorded a YoY Inflation Rate of negative 4.6%. The M-o-M Inflation Rate was negative 0.2%.

Method of Calculating Indices

The compilation of indices follows two methods: the Modified Jevons formula (geometric average) is used to compute elementary indices while the Modified Young Index Formula is used to compute higher-level indices.

All items within the Basket are grouped according to the Classification of Individual Consumption according to Purpose (COICOP, 1999), an international hierarchical classificatory scheme developed by the United Nations Statistics Division to classify and analyze individual consumption expenditures incurred by households. The 12 functions are being used for Liberia's CPI Compilation.

The weight reference period is 2016 and the price reference period is December 2018.

The index reference period is December 2018. The overall index as well as the indexes of the 12 divisions were chain-linked forward to have a continuous series from January 2006.

Limitations of the CPI

Liberia's CPI Data for market items are only collected in the four major markets of Monrovia and its immediate environs of Paynesville and Bushrod Island. For service items, data are collected in all major supermarkets, shops, stores, restaurants, hotels etc. in Monrovia and its immediate environs.

Dissemination

A bulletin on the November 2025 CPI along with a more detailed dataset in Excel format has been posted on the LISGIS website www.lisgis.gov.lr. The monthly CPI Report is published on or before the 15th of each month for the previous month.
